BOARD OF EDUCATION
NEWARK 2 NEW JERSEY

OFFICE OF THE SUPERINTENDENT OF SCHOOLS

September 27, 1948

Mr. Roy Norris
Urban League of New Jersey
58 West Market Street
Newark, New Jersey

Dear Mr. Norris:

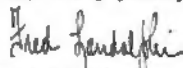

You will no doubt recall your participation as a speaker on the Career Day program at Barringer High School on March 23. We are still indebted to you for your kindness in giving our pupils the benefit of your wisdom and experience in your chosen vocation.

I am taking the liberty of enclosing a rough draft of the talk you made on that occasion. This draft was prepared by a pupil in the Newark schools. Your talk was of such value that we should like to make it available in published form to a great many other pupils in our secondary schools who could not be present for your oral presentation.

If this meets with your approval would you be so kind as to examine this copy, making any changes (corrections, additions, etc.) which you may feel are indicated? It is quite possible that our pupil reporters may have omitted statements that you would wish included in a published copy. It is possible, too, that they may have inaccurately recorded some items. If it is not asking too much, I should appreciate your returning to me a corrected copy at your earliest convenience in the enclosed self-addressed envelope. If this copy meets with your approval "as is," please write "approved" on the title page and add your signature. When publication takes place, I shall be happy to send you one or more copies for your files.

Thanking you once again for your generous cooperation in the past, I am

Very truly yours,

Fred Landolphi
Director of Guidance
